1b. Academic qualifications

2017, PhD, Statistics, University of St Andrews

2013, MSc, Statistics, University of St Andrews

2012, BSc Hons, Mathematics, Aberystwyth University

1c. Professional positions held

2023-present, Senior Lecturer in Statistics, University of Auckland

2019–2023, Lecturer in Statistics, University of Auckland

2018–2019, Statistician, National Institute of Water and Atmospheric Research

2017–2018, Statistical Consultant, Sea Mammal Research Unit, University of St Andrews

2014–2016, Statistics Tutor, Centre for Academic, Professional and Organisational Development, University of St Andrews

2007–2012, Veterinary Assistant, John Downes Veterinary Surgery

1d. Present research/professional speciality

My research focuses on the development of novel point process models, in particular, the use of stochastic structures to account for unexplained, but relevant, spatial and/or temporal variation in real world applications. To date I have developed and applied such models in the fields of ecology, terrorism studies, and cancer research.

1e. Total years research experience:

6 years post-PhD

1f. Professional distinctions and memberships (including honours, prizes, scholarships, boards or governance roles, etc)

2022, Marsden Fund Fast-Start Grant recipient, Royal Society of New Zealand

2021, New Zealand Statistical Association, Worsley Early Career Award

2017, Invited speaker, Royal Statistical Society Conference, Glasgow, UK

2017. Statistical Excellence Award for Early-Career Writing finalist.

Young Statisticians Section of the Royal Statistical Society.

2015, Invited speaker, Statistische Woche young statisticians session, Hamburg, Germany

2017, Invited speaker, Royal Statistical Society Conference, Exeter, UK

2015, Royal Statistical Society 2015 Challenge finalist

2012, Pennington Prize for Pure Mathematics,

Aberystwyth University
